OBJECTIVE

I am a passionate and driven Full Stack Web Developer and UI/UX Designer from Nepal with a solid foundation in web technologies. As the Founder and CEO of MS IT Solution, I have honed my ability to design, develop, and implement dynamic web solutions, combining creativity with strong technical skills. Currently pursuing a Diploma in Information Technology, I have a hands-on approach to front-end and back-end development, and I am eager to continue growing my skill set by contributing to innovative projects.
